EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Nathaniel T. Wallace (the Undersigned Attorney, Reg. No.48,909) on 6/9/2005.

The application has been amended as follows:

IN THE CLAIMS:

Please **amend** claims <u>1 and 11</u> as follows:

--1. (Currently Amended) A <u>computer implemented</u> method for representing a user within an online environment comprising the steps of:

defining a plurality of environmental parameters for controlling user interaction, the environmental parameters including two-dimensional space parameter and a time parameter, wherein defining, the plurality of environment parameters comprises,

determining an environmental structure,

governing user interaction within the environment according to the user parameters and the environmental structure, and

displaying an abstract graphical cue of a first parameter of the user in the abstract graphical display of the environment, wherein the abstract graphical cue moves

Application/Control Number: 09/662,499

Art Unit: 2151

through the abstract graphical display of the environment according to a second parameter of the user to provide a second abstract graphic cue;

defining a plurality of user representation parameters of user data within the environment;

capturing user data from the user;

displaying an abstract graphical display of the environment to the user; and displaying a user representation within the abstract graphical display incorporating the user data to the user, wherein the user representation appears at a location in the two-dimensional space according to a level of user activity over time.

11. (Currently Amended) A <u>computer implemented</u> method for representing a social proxy comprising the steps of:

displaying an abstract graphical display of the social proxy for a virtual environment and facilitating user interaction, wherein the social proxy is a geometric shape defining a boundary of the virtual environment, wherein the social proxy for the virtual environment includes a two-dimensional space parameter and a time parameter,

wherein displaying the abstract graphical display of the social proxy for a virtual environment comprises,

determining the geometric shape,

governing user interaction within the social proxy according to the geometric shape, and

Application/Control Number: 09/662,499

Art Unit: 2151

displaying an abstract graphical cue of a first parameter of the user in the abstract graphical display of the social proxy for a virtual environment, wherein the abstract graphical cue moves through the abstract graphical display of the social proxy for a virtual environment according to a second parameter of the user to provide a second abstract graphical cue;

defining a user proxy for a user, the user proxy having updatable variables;
displaying the user proxy within the geometric shape defining the boundary of the virtual environment, wherein the user proxy appears at a location in the two-dimensional space according to a level of user activity over time; and

updating user proxy variables periodically .--

Allowable Subject Matter

2. Claims 1 and 3-18 are allowed.

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Khanh Dinh whose telephone number is (571) 272-3936. The examiner can normally be reached on Monday through Friday from 8:00 A.m. to 5:00 P.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Zarni Maung, can be reached on (571) 272-3939. The fax phone number for this group is (703) 872-9306.
